### Supt. Archer to Speak.

"I was troubled with scrofula and came near losing my eyesight. For four months I could not see to do anything. After taking two bottles of Hood's Sarsaparilla I could see to walk, and when I had taken eight bottles I could see as well as ever." SUSIE A. HAIRS, Care, Withers, N. C.

**President Intervenes.**  
President Roosevelt has again

intervened as peace maker between the coal miners and operators and as the result of a letter addressed to him to John Mitchell, president of the United Mine Workers of America the national convention of the miners will be held March 15 in Indianapolis to try to reach an agreement with the soft coal operators in the hope of averting the threatened strike April 1 in the bituminous coal fields.

Miss Mary Christina Hamman is the little daughter of Mr. and Mrs. Chas. Hamman, of Cloverport. Although she has not reached her second birthday, she has made a host of friends and is a very attractive little girl.

### Electric Light Franchise Sold.

The City Council at its regular meeting Monday night sold a 20-year franchise to H. Stuart Miller for \$3, giving the right to construct and operate an electric light, heat and power plant in the city of Cloverport. The site for the plant has not been given out by Mr. Miller as yet, however, preparations are being made to begin its construction at once. The sale of this franchise is positive assurance of electric lights for Cloverport.

## TRAINED NURSE.

Writes a Letter to the News.

To the Editor of the News:—

"I am a trained nurse of nine years' experience in hospitals and private cases, and for the benefit of the people of Cloverport, I wish you would publish my experience with the cod liver oil preparation, called Vinol.

"I was completely prostrated from overwork. I had no appetite, could not sleep, my kidneys, liver and bowels became inactive, and as I grew weaker could not retain either medicine or food on my stomach and raised blood. The doctors said my condition was critical, and I would probably die.

"As I had seen Vinol prescribed for my patients with such remarkable results, I decided to try it myself. After the first bottle I began to improve. I continued its use and soon began to sleep and eat well; every organ in my body was strengthened and became normal, until it seemed good to be alive and was restored to perfect health and strength.

"I believe Vinol is the most potent and delicious cod liver oil preparation and tonic re-builder in the world, and it is such a blessing to be able to take into the system all the body-building and medical elements of cod liver oil without the nauseating, greasy oil itself.

I advise all my patients who need strength for every organ in the body, rich, red blood, and flesh tissue, to take Vinol, as it is so far superior to old-fashioned cod liver oil, emulsions or other tonics." Elizabeth M. Cremond, Trained Nurse, Boston, Mass.

Short & Haynes druggists sell Vinol on a positive guarantee to return your money if it fails.

## Endoses Road Convention.

Beverlyville, Ky., Feb. 24.—Editor News:—Permit me to say I endorse Judge Morrison's Road Convention. Anything for good roads. I am for issuing 20 or 30 year county bonds for a sufficient amount of money to put all the roads in the county in good condition. Then tax the people to pay interest on said bonds and something over to be put into a sinking fund, etc.

Anyone has something better, let us hear from him. I am for good roads. Thos. J. Jolly.

Loss of appetite always results from faulty digestion. All that is needed is a few doses of Chamberlain's Stomach and Liver Tablets. They will invigorate the stomach, strengthen the digestion and give you an appetite like a wolf. These Tablets also act as a gentle laxative. For sale by Short & Haynes.

## Corporal Punishment.

H. B. 504.—M. Wilson.—Providing that corporal punishment may be inflicted for vagrancy, wife-beating, child beating, pot-lagering and disturbing public worship. Kentucky Statutes.

## Torture by Savages.

"Speaking of the torture to which some of the savage tribes in the Philippines subject their captives, reminding me of the intense suffering I endured for three months from inflammation of the kidneys," says W. M. Sherman, of Cushing, Mo., "Nothing helped me until I tried Electric Bitters, three bottles of which completely cured me." Cures Liver Complaints, Dyspepsia, Blood Disorders and Malaria, and restores the weak and nervous to robust health. Guaranteed by Short & Haynes, druggists. Price 50c.

## CHURCHES UNITED.

The Baptist people of Hawesville, known as the open communionists, and the people of the Christian church, there have been united into the Christian church. The church organized with fifty members. George Bentley, Thomas D. Ireland, E. C. Vance were as a Board of Trustees. The following were elected as Elders: George Bentley, J. W. Patterson, and T. D. Ireland. Messrs. Stephen Parker, E. C. Vance, Prof. Sawyer and Dr. Standish were unanimously chosen as Deacons.

A special train from Owensboro to Hawesville Sunday brought over a hundred members of the Owensboro Christian church under the lead of their pastor, R. H. Crossfield. The services were held in the court house, and it is said that they were the most enthusiastic of any church services ever held in Hancock county. Many addresses were made by notable men of the Christian church.

## WHY M'KINLEY WAS A MASON.

A dinner to the Sovereign Grand and Grand Consistory of the Ancient and Accepted Scottish Rite was given at the Savory last night by the consistory of the metropolitan district. Incidentally it was the ninety-ninth anniversary of the establishment of the Supreme Council of the United States.

Gen. Horatio C. King gave some reminiscences of the civil war and told how President McKinley came to join the order.

"It was during the campaign in the Shenandoah Valley," he said, "McKinley, then a Captain, and myself, his ranking officer at that time, were walking through a hospital tent in which were a number of Confederate wounded. The Captain seemed surprised to see the surgeon in charge of the ward talking to some of the Confederates as if he had known them all his life. He shook hands with them all, giving here and there small sums of money until his supply was exhausted. McKinley asked the surgeon if he knew the men.

"No," he replied.

"Well, do you ever expect to get the money back?" McKinley asked.

"I presume some of them will return it when they can," said the doctor.

"Why did you give it to them, anyway?"

"They were Masons," said the doctor.

The reply impressed McKinley so that he immediately joined the lodge at Winchester, made famous by "Sheridan's Ride." After the war he took his demit to Canton Lodge.

Frank T. Watson, Grand Commander in Chief of the State, gave a brief history of the order in the State and its early days in this country. Andrew J. Hovost, Sovereign Grand Commander, responded to "The Grand Men of the Rite."

## Afflicted With Rheumatism.

"I was and am yet afflicted with rheumatism," says Mr. J. C. Bayne, editor of the Herald, Adairton, Indian Territory, "but thanks to Chamberlain's Pain Balm am able once more to attend to business. It is the best of liniments." If troubled with rheumatism give Pain Balm a trial and you are certain to be more than pleased with the prompt relief which it affords. One application relieves the pain. For sale by Short & Haynes, Cloverport.

## The Fiddle Drill.

The "fiddle drill" is one of the oldest stonemasonry tools in existence. It is said to antedate Greek sculpture and is in use today in about the same form as it was 2,000 years ago. As its name implies, its action resembles a fiddle. The drill is of two pieces. In one hand a carver holds the drill stock, which is like a carpenter's brace, except that it is straight instead of having a crank. In the other hand he holds the "bow," which is strong with a brass wire and which he gives a turn around the drill stock. To use the drill the carver places the drill stock against his breast, holding it with his left hand, and with his right he draws the bow back and forth, fiddle fashion. This imparts a rotary motion to the drill stock, and the drill is ground to cut in either way it turns. The fiddle drill is used in the finest work, in crevices where the sculptor could not reach with his chisel and hammer without endangering the carving.

## The Worrying Habit.

I asked a physician what cure he would suggest for the worrying habit. "I would prescribe common sense," he said. "And if a man or woman hasn't got a stock on hand can't cultivate one no doctor can give it to him or her. This worrying nonsense grows. The best means to cure it lies in the hands of the woman herself. If she will just call a little common sense to her aid, resolve not to borrow trouble, to be cheerful and think upon the best side of things, she will live longer and retain her beauty longer. Every woman wants to keep beautiful to the last. Why does she take the course which is sure to make her yellow skinned, dull eyed and thoroughly unlovely?"

Why, indeed?—New York Globe.

## Vanilla.

It is curious to read that vanilla was employed by the Aztecs of Mexico as an ingredient in the manufacture of chocolate prior to the discovery of America by the Spaniards and that it was brought to Europe as a perfume with indigo, cochineal and cacao ten years before the arrival of tobacco on our shores. The name vanilla is derived from the Spanish vanilla, a pod or capsule. Dried and cut it is a little pod full of small black seeds and like the stem of a tobacco leaf, so much so that his men when they found the dried pods at first threw them away, "wondering why the Spaniards should lay up tobacco stems,"—Chambers' Journal.

## The Canadian Line.

The boundary line between Canada and the United States is marked with iron posts at mile intervals for a great part of its length. Cairns, cairn mounds and timber posts are also used, and through the forests and swamps a line of red white, clear of trees and under wood, has been cut. Across the lakes artificial islands have been made to support the cairns, which rise about eight feet above the high water mark.—Exchange.

## NATURAL BUILDERS.

BOASTFUL MAN SHOULD CONSIDER THE WORK OF ANIMALS.

Extraordinary Instinct and Capacity of Some Apparently Insignificant Creatures—A Few of the Many Wonders They Have Performed.

Man prides himself upon his marvelous inventions. He goes up to the admiration of the world the wonderful buildings which he has constructed and thinks himself unrivaled as an architect, but "he who teaches man knowledge has instructed the smallest insects in the art of building and has thus anticipated the works of man as an architect." They who build the tower of Babel thought their invention of turning earth into stone a most wonderful discovery, but the white ant and the busy little bee had practiced this art from the earliest days. The great mathematician instructed the tiny bee how to build its first cell in the manner which combines the greatest amount of strength with the least material. Instruct, which may be called perpetual memory, has preserved the knowledge thus communicated, and the art has been practiced by the countless myriads of their descendants in all climates and countries. The little bee has been engaged in storing away the honey in these hexagonal cells, constructing the cells of wax and placing within them the bee bread, a paste made of pollen and honey, for the food of the young. In each of these cells the queen bee deposits an egg. Some of the bees surround their nests with downy coverings from the leaves of plants to serve as a nonconductor of heat, to guard against changes of temperature.

Nature taught the inferior orders of animals carpentry, taught them to divide their houses into various apartments, to construct domes, arches, staircases and colonnades and to excavate tunnels. The scarlet hangings of the ancient city of Tyre excited the admiration of the then known world, but there was a little insect that knew the art, long before the celebrated Tyrian dye was discovered, of hanging the walls of its cell with tapestry of a scarlet more brilliant than that of Tyre.

Selecting the scarlet petals of the poppy, the upholsterer bee cuts small, oval pieces as neatly as if done with a pair of scissors, seizes the pieces between her legs and carries them to her nest. She overlays them three or four in thickness, fitting the pieces very dextrously, and thus hanging her nest all around with this splendid scarlet tapestry. In this beautiful nest her eggs are hatched.

Men have been ages in bringing populous cities to their fullest extent, but the white ants require only a few months to build a city which contains much larger number of inhabitants than Babylon in all its glory. These habitations are built with two stories, with long galleries and lofty chambers. The spider weaves his home as a silken net; the locust constructs his of the bark of trees, cut in to shape by a sawlike organ which he possesses; the kingfisher rears its young in a floating cradle; the ant builds winding passages to numerous chambers. In the innermost of these chambers the infant queen is hid at night to protect them from cold. In the morning, when the sun is up, the workers convey the larvae to the upper chambers, close under the roof, where they may have warm.

The beaver built is round and arched and has a cellar, a flooring, a ceiling and a roof raised by an animal destined by nature, the hare keeps open a chimney to his burrow for circulation of air, from which in cold countries a little column of steam is often seen to arise. The chimpanzee builds for himself a web of branches and leaves, which is, however, roofless. Many shellfish have been taught by Mother Nature to enlarge their houses without moving out of them. Birds build various kinds of nests in various kinds of places. They hang them from trees, they sew them to a living leaf, they weave a matting above them, they build them in sections under a common roof in the shape of a purse, they place them in tufts of grass where they found their lowly home of withered herbs and coarser spear grass.

They line their houses with feathers, leaves, grass, hair, string, moss; they cement them, they glue them, they plaster them.

The most insignificant of nature's creative bounty have a talent for making houses for their young. The gentry in yellow jackets deposit their eggs in brown paper cups or in little clay cells; the spider, that shy spinner, ties them up in bags of quaker bodied silk. Some do them up in gray bundles and hang them on trees; some find a cradle for them in the ripening apple or the reddening cherry, while some shelter them beneath the leathern umbrella of the toadstool. Everywhere these larvae may be found as spring openings. They are peeping from holes swinging in the air, laid away in silken shrouds, rocked in shells of the ocean, burrowing in the earth, skulking in the woods, set in mother of pearl, put up in ivory, imbedded in sand, laid away in the center of fallen logs, pecking from the other side of shells, blue mottled and white, each fulfilling its part in the great workshop of nature. The great monuments of man, his cities, edifices, roads, are but pebbles in comparison with the works of these humble creatures who have constructed reefs and islands in the midst of the sea. Deep down in the waves is one of nature's largest workshops, and the work is done according to nature's order by the little coral animal whose home is in the ocean.

## HYOMEL CURES CATARRH.

Its Healing Balsams Kill All Catarrhal Germs—Sold Under Guarantee by Short & Haynes.

There is no more common disease than catarrh, and none that is more dangerous. It weakens and debilitates the whole system, if it is allowed to run, leads to serious, and sometimes fatal complications.

It is more worthy fact that among the many medicines and treatments for catarrh, there is only one which Short & Haynes sell under their positive guarantee to refund the money if it does not cure.—Hyomel, Nature's remedy for the cure of catarrh.

No dangerous drugs are taken into the stomach when Hyomel is used. Breathed through the small pocket in baler that comes with every Hyomel outfit, its healing balsams penetrate to the most remote cells of the throat, nose, and lungs, killing the germs of catarrh, healing the irritated mucous membrane, and making complete and lasting cures.

The complete Hyomel outfit, consisting of an inhaler that can be carried in the purse or vest pocket, a medicine dropper, and a bottle of Hyomel costs only \$1. The inhaler will last a lifetime, while extra bottles of Hyomel can be procured, whenever needed, for only 50 cents.

Short & Haynes are selling a good many Hyomel outfits at this season, and are having so much confidence in the remedy that they guarantee to refund the money in case it does not cure.

## The County Unit Bill.

Mr. Editor:—I will give you my impressions regarding temperance legislation at this time. I saw things while in Frankfort a few days ago. The whiskey people are begging for two units; viz, cities down to the fifth class and the counties outside of the cities. Any bill of that kind will be a practical defeat; for it is not what we want or what we need but with processes of obstruction and corruption, they are determined to defeat us. I was told that all saloons had been assessed ten dollars each, making a corruption fund of some \$23,000, that may be used to lobby against the bill. The republicans are standing pat on the Cumback bill, with only two of their members standing out against us. The measure could pass if the Senate would consent to put it on its passage, to do that it requires a two thirds vote to take the bill from the orders of the day. That we cannot get, as the whiskey men know it well.

Therefore we may as well get ready to enter a vigorous campaign, for the purpose of selecting men who, when elected, will do their duty on this question, and compass the defeat of all men who are in league with the whiskey men.

I am also impressed with another fact, the preachers and church people of this state are not awake on this question. They go to their conferences, Associations, Presbyteries, and other church convocations and vote heartily for temperance resolutions and think that they have done their whole duty.

God grant me power to awake every one in this question. Preachers and teachers of Kentucky wake up! Again I say wake up! Arise against yourselves like men, and destroy the saloon if it takes a moral and political resolution to do it.

## Arrow Shields.

The other day I saw a little, modern book, in a green cover, on a table in a drawing room. I picked it up. It was about the early French in Canada, and my eye fell on a copy of a drawing of the little, modern, or Chippewa. The scene represented was an attack by the native allies of the French, the Algonquins, on a fort held by the Iroquois. The Algonquins advanced through showers of arrows under shields nearly as tall as themselves, like doors with rounded tops. Now, you may see exactly the same sort of shield in a picture of a lion hunt, as laid in gold and silver, on the bronze blade of a dagger found by Dr. Schliemann in "the grave of Agamemnon." These modern Algonquian shields cause much discussion among the learned. Why were they so huge? The Algonquins used the very same shields, hung from their necks, and in the same—their battles were battles of archers, and nobody can parry a shower of arrows with a smaller shield. Shields grew small in Greece as bow and arrow went out and sword and spear came in.—London Illustrated News.

## MISS ROSA LOU DITTO, OF HARDINSBURG.

Miss Ditto is a candidate of the Twelfth District in the Courier-Journal's Tour to Europe popularity contest. She was voluntarily nominated by some of the business men of her home town and they should be quite gratified with the number of votes that have been cast for her. Miss Ditto is an interesting young woman and Breckenridge county would be proud to be represented at any place in the world by her.

# WILL RECOVER MILLION ACRES.

That Much of the Public Domain Alleged to Have Been Illegally Taken.

As a result of the investigations made by the land department of the Government concerning the land fencing the leasing lands 1,000,000 acres of land which had been entered fraudulently has been recovered and will again be thrown open for settlement on July 1 of this year. All of this land had been taken up in some illegal manner and is now being returned to the public domain.

One bunch of seventy-three affidavits was received from the land department at Hot Springs, Ark., through which money had been paid to parties making proof and upon the presentation of warranty deeds to the claims.

All these will be recovered upon. Funds pre-empted before 1905 are outlawed.

If you are troubled with Piles and can't find a cure, try Witch Hazel Salve, but be sure you get that made by E. C. DeWitt & Co., Chicago. It is the Original. ## Always Keeps Chamberlain's Cough Remedy in His House.

"We would not be without Chamberlain's Cough Remedy. It is kept on hand continually in our home," says W. W. Kearney, editor of the Independent, Lowry City, Mo. That is just what every family should do. When kept at hand ready for instant use, a cold may be checked at the outset and cure in much less time than after it has become settled in the system. This remedy is also without a peer for croup in children, and will prevent the attack when given as soon as the child becomes hoarse, or even after the croupy cough appears, when it can only be done when the remedy is kept at hand. For sale by Short & Haynes, Cloverport.

## CLOVER BLOSSOMS ENTERTAINMENT.

Last Tuesday evening at the M. E. Church the Clover Blossoms gave a delightful entertainment. Little bits of poetry were said by the younger Blossoms and the older ones read and sang. A flag drill and concert singing were interesting features. Refreshments were served. A net offering box was well cared for. Mrs. R. B. Pierce is the lady manager of the Clover Blossoms and deserves credit to a large extent for the success of the entertainment. Mrs. Pierce reports the following to have taken part in the evening program:

Julia Hills, Francis Sawyer, Sussette Sawyer, Edith Burns, Margaret Burns, Jeanette Burns, Marie Pitts, Pauline Moutman, Edith Plank, Fred Plank, Fred Plank, Elizabeth Skillman, Leona M. Garock, Mary Metcalf, Eloise Nettie, Jennie Mable Harris, Lucy Adams, Fred Adams, Clifton Fort, Elmer Hoffmann, Eldred Babbage, Tula Habbage, Louise Babbage, Martha Miller.

## Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes. The kidneys are your blood purifiers. They filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or uneasy heart beats, and makes one feel as though he had heart trouble, because the heart is over-working in pumping this kidney-poisoned blood through veins and arteries.

It is used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle by mail. Home of Swamp-Root, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Send this paper when writing Dr. Kilmer & Co., Cincinnati, N. Y.

Don't make any mistake but remember the name, Swamp-Root, Dr. Kilmer's, N. Y., on every bottle.

## H. W. GRADY ON WHISKEY TRAFFIC.

To-night it enters the humble home to strike the roses from a woman's cheek and tomorrow it challenges this republic in the halls of Congress. To-day it strikes a crust from the lips of a starving child and tomorrow it levies tribute from the government itself.

There is no outrage humble enough to escape it, no palace strong enough to shut it out.

It defies the law it cannot escape suffrage.

It is the mortal enemy of peace and order, the despoiler of men and has dug more graves and sent more souls untried to judgment than all terror of women, the clods that shadows the face of children. It is the demon that has been more harmful than the pestilences that have wasted life since God sent the plagues to Egypt, or all the wars since Joshua stood before Jericho.

It comes to ruin and it shall profit mainly by the ruin of your sons and mine.

It comes to mislead human souls and to crush human hearts under its rumbling wheels.

It comes to bring gray-haired mothers down in shame and sorrow to their graves.

It comes to change the wife's love into despair, her pride into shame.

It comes to still the laughter on the lips of little children.

It comes to still the music of the home and to fill it with desolation.

It comes to ruin your body and mind; to wreck your home, and it knows it must measure its prosperity by the swiftness and certainty with which it wrecks this world.

## REVENUE BILL PASSED BY 56 TO 32.

Frankfort, Ky., March 1.—The Revenue and Taxation bill finally passed the House this morning by a vote of 56 to 32. The bill has had a stormy session in the House, and the substitute with its various amendments which finally passed the House today is hardly on speaking terms with the original House Bill No. 1, introduced by James S. Morris.

The original bill was the fruit of the labors of a Senate commission, which had worked two years on it. In that form it went into the joint committee, where it was amended and passed on beyond recognition and finally reported back to the House over a week ago. For three days it was under consideration in committee of the whole, where it was chopped in places and amendments were tacked on in other places.

### A Favorite Remedy for Babies.

Its pleasant taste and prompt cures have made Chamberlain's Cough Remedy a favorite with the mothers of small children. It quickly cures their coughs and colds and prevents any danger of pneumonia or other serious consequences. It not only cures croup, but when given as soon as the croupy cough appears will prevent attack. For sale by Short & Haynes, Cloverport.

### Influence Versus a Vote.

Rev. Madison C. Peters, of New York, who has been elected to the House, woman could vote, she would have no man to represent her. According to all accounts, men in office are much more desirous to represent the lives of women in States where they have none.

Mrs. Mary C. C. Bradford, president of the Colorado State Federation of Women's Clubs, said at the Congressional Hearing in Washington in February, 1904: "Instead of woman's influence being lessened by having a vote, it is greatly increased. There were so many members of the last Legislature who wanted to get their bills endorsed by the women that the Legislative Committee of our Federation had to sit one day in every week to give hearings to them. Women outside the official suffrage States do not have this experience."

Mrs. A. Watson Lister, secretary of the Woman's National Council of Australia, visited the United States last year. At a meeting in Boston, she said: "One striking result of equal suffrage is that members of Parliament now consult us as to their bills, when these bear upon interests of women. The author of the new divorce bill asked representatives of all the women's organizations to come together and hear him read it, and to make criticisms and suggestions. I do not remember any such thing happening before women obtained the franchise. After we had worked for years with members of Parliament for various reforms, without avail, because we had no votes, you cannot imagine the difference. When we held meetings to advocate public measures that women were called on to go out in the high-ways an hedges and compel the members of Parliament to come

## TWO OPEN LETTERS IMPORTANT TO MARRIED WOMEN

Mrs. Mary Dimmick of Washington tells How Lydia E. Pinkham's Vegetable Compound Made Her Well.

It is with great pleasure we publish the following letters, as they convincingly prove the claim we have so many times made in our columns that Mrs.

Mrs. Mary Dimmick

Pinkham, of Lynn, Mass., is fully qualified to give helpful advice to sick women. Read Mrs. Dimmick's letters.

Her first letter:

"I have been a sufferer for the past eight years with a trouble which first originated from painful periods—the pains were excruciating, with inflammation and ulceration of the female organs. The doctor says I must have an operation or I cannot live. I do not want to submit to an operation if I can possibly avoid it. Please help me.—Mrs. Mary Dimmick, Washington, D. C.

Her second letter:

"I will remember my condition when I last wrote you, and that the doctor said I must have an operation or I could not live. I received your kind letter and followed your advice very carefully and am now entirely well. As my case was so serious it seems a miracle that I am cured. I know that it is not only my health but my life so Lydia E. Pinkham's Vegetable Compound and to your advice. I can walk miles without an ache or a pain, and I wish every suffering woman could read this letter and realize what you can do for them.—Mrs. Mary Dimmick, 50th and East Capitol Streets, Washington, D. C.

How easy it was for Mrs. Dimmick to write to Mrs. Pinkham at Lynn, Mass., and how little it cost her—a two-cent stamp. Yet how valuable was the reply! As Mrs. Dimmick says—'I saved her life.' Mrs. Pinkham has on file thousands of just such letters as the above, and offers still women helpful advice.

In. Now the difficulty is to keep them out. I have seen a Senator at one small meeting. Chivalry has not been destroyed, but increased. On the platform at one of our meetings, the secretary happened to drop her pencil, and I saw the premier and several members of Parliament scrambling to pick it up."

Everybody knows that legislators care more to consult the wishes of voters than those of persons without a vote. Hence where women have the ballot, they are of course more truly "represented!"

### Nearing the City.

Margaret Reidy Scott in the March Century.

The quiet hills stretched far behind. The swift train out the broad green plain.

Like some mad dream of impulse blind That rushes headlong toward the goal.

The peace of apple trees in bloom No longer waded the soil to dream, White songs of hillside brooks made room

For harsher sounds of brass and steam

The keen electric thrill of life Rose vibrant through the sunless air. Already traffic's noisy strife Forboded the unrest of care.

Not even the memory of the thrush, Outpouring lyrics o'er the fold, Could drown the cries or still the rust

Of those who gave the souls for gold.

Yet in this net of complex ways, Where time is all too brief for dreams, With heart still stirred perchance by days

Passed long ago near willowed streams, The child named Thought—who hither came

From guardian hill, down cradling meads

Who learned through God or lure of fame

The master life—became a Deed.

If it is a billions attack take Chamberlain's Stomach and Liver Tablets and a quick cure is certain. For sale by Short & Haynes, Cloverport Ky.

### Persuading.

"Jenkins is a man of remarkable perseverance."

"Is he?"

"Yes, indeed. He has tried six different kinds of hair restorer, and he hasn't given up the fight yet."

## ST. LOUIS LIVE STOCK MARKET. Reported by Evans-Snyder-Buel Co. Live Stock Commission Agents.

(Special to the News.)

National Stock Yards, Ill., Feb. 28th, 1906.—The week opened with very light receipts of cattle and a strong active market, beef steers ranging the loss noted last week, when at the close, most sales showed a decline of 15 to 25 cents. A good many plainish pretty good export steers are selling from \$5.25 to \$5.50; yet it takes a pretty good grade of 1900 to 1250 lb. steers to bring \$4.90 to \$5.35. No fancy grades have been here, thus accounting for the lack of higher quotations, as something prime as to flesh and quality would sell around \$6.00. In short, the bulk of the fat steers are selling from \$4.35 to \$4.90.

Butcher grades showed less decline than beef grades last week and likewise a little more strength this week, values averaging a shade higher than noted in our last letter. Odd lots of stall fed prime fat cows have reached \$4.50, but the bulk of the receipts sold from \$3.50 to \$4.15; cutters around \$2.90 and canners from \$2.30 down. Some sales show 10 to 30 cents advance over a week ago.

Owing to the severe storm the fore part of the week, country buyers were scarce as were also receipts in the stocker and feeder division. Yard traders are all pretty well supplied with all but desirable grades and the trade is less active than a week ago.

We have the highest hog market in the west, and extreme top of \$6.40 having been reached here and our values are 20 cents higher than Kansas City and 3 to 10 higher than Chicago.

Chicago had 90,000 hogs on Monday which caused a slight set back but prices have ruled steady to strong since with the bulk of the packers selling \$6.15 to \$6.25; pig and lights \$5.25 to \$5.55. Sheep trade unchanged.

Compared with a year ago the average prices of cattle are \$11 per cwt. higher, hogs \$1.25 higher and sheep about 75 cents lower. With these facts before you, you should not hesitate to take advantage of these prices on anything that is ready for market.

With thirteen inches of snow on the ground, country roads almost impassable and lent coming this week, it is a question what the near future will bring forth.

### "A Star Out of Jacob."

In the time of the reign of Hadrian, about A. D. 130, a Jew appeared among the people of Palestine claiming to be a messiah—the "star out of Jacob"—which Balak predicted in his prophecy. (See Numbers xxiv. 17.) This Jewish messiah's name was Simon Bar-Cochbe, which latter name in the Hebrew language means "son of a star."

This individual who claimed to be of divine origin took Jerusalem by storm (A. D. 132) and actually commenced the rebuilding of the temple. He took the government in hand and issued coins and performed many other public offices. One of these coins, now in the British museum, has an enlarged star upon one side and upon the other a Hebrew legend meaning "The Deliverer of Jerusalem." The Jews, it is said, lost 600,000 men defending this messiah at the time when the Roman government attempted to put down the popular delusion. In Roman history Bar-Cochbe is known as "Cosiba of Barchocheba." The enemies of the "son of a star" charged him with the crime of blasphemy, which in the Hebrew means "son of a lie."

The Southwesterner is in a position to advise. He has passed from his previous condition of dependence, partial dependence, to complete independence. He has broadened his acres and increased his holdings three, five, and even ten-fold by the exchange of high-priced lands in the East for cheap farms of the Southwest, multiple in extent—every acre "an acre of good ground." In a word—"his ship has come in." Can you afford to wait longer for yours? There are many similar opportunities still open in

WEDNESDAY, MARCH 7, 1906.

### A BIT OF LAW.

The following ordinance taken from the book of City Ordinances of Cloverport shows very plainly to our mind that certain businesses now in operation in Cloverport on Sunday are in open violation of the law. The evidence in these particular cases is more than prima facie, it is to our mind, absolutely plain evidence of guilt. We presume the ordinance was compiled and passed by the City Council with the view of being enforced. Present conditions, however, make it, pure and simple, a mockery. The ordinance reads:

"No work or business shall be done on the Sabbath day, except the ordinary household offices, or other work of necessity or charity, or work required in the maintenance or operation of a ferry, ship or steamer, or steam or street railroads. If any person on the Sabbath day shall himself be found at his own, or any other trade or calling, or shall employ his apprentices, or other person, in labor or other business, whether the same be for profit or amusement, unless such as is permitted above, he shall be fined not less than two nor more than fifty dollars for each offense. Every person or apprentice so employed shall be deemed a separate offense. Persons who are members of a religious society, who observe as a Sabbath any other day in the week than Sunday, shall not be liable to the penalty prescribed in this ordinance, if they observe as a Sabbath one day in each seven, as herein provided."

As a little contrast to the above ordinance, we reproduce below an ordinance regarding fire works, which was rigidly (very rigidly) enforced during the Christmas holidays. It is as follows:

"It shall be unlawful for any person or persons to explode or set fire to any fire-crackers, fire wheel, sky-rockets, roman-candles or any fire works of any kind or character, on or in any street, alley, or other public place, within the corporate limits of the City of Cloverport, or at any other place within the corporate limits of said city. Any person violating the provisions of this ordinance, or any part thereof, shall be fined not less than one nor more than ten dollars for each offense."

One ordinance stands primarily for the protection of man; the other for the protection of the consecration of the Sabbath. The Sabbath day is of God's own creation. Do we reverence man more than God? The contrast between the enforcement and non-enforcement of these ordinances is so striking as to make the unwary believe that Cloverport has a higher reverence for man than God. But, thank God, we do not think this is the case.

### THE SALOON AND LOCAL OPTION.

A common cry among the advocates of the open saloon in Cloverport is that "whisky is being sold here now with local option and affairs are as bad as if we had an open saloon." On the face of it affairs are not as bad as they would be with an open saloon. In the six years that Cloverport has had local option there has been a man killed while under the influence of liquor!

Has that boy of yours been brought home to you at 12 o'clock in the night made drunk by some DIAM SELLER? No! Does that sweet daughter of yours you love with every breath you breathe and with every throb of your heart, does she, on her way to school or on the street shopping, have to pass by a foul, ill-smelling saloon, where the vilest oaths and the most debaucherous slander and talk seethe out of its door while your darling, with her pure thoughts and her chastity, walks by? DOES LOCAL OPTION AFFORD THIS? NO! You say that whisky can be gotten by anybody. But can it be secured as easily as if an open saloon with its band playing and billiard balls rolling, were standing on our front street enticing our boys in? The veteran drinker who loves whisky, and even the small kindles his appetite, does he fall to the gutter as often when local option exists as when the saloon invites him in?

The affairs, gentlemen, you who stand for an open saloon, are not as bad with local option as with a saloon. And furthermore, if affairs are a little bad with local option, you know that you have not, by your vote, helped to bring about such conditions, and you are not personally responsible for such conditions.

### TOO MANY IDLE.

CLOVERPORT has too many idlers lounging around its depot. This leaves a bad impression on strangers and should not be allowed. There is an ordinance against this and it ought to be enforced. The ordinance regarding it reads:

"It shall be unlawful for any person or persons to congregate, loaf or loiter upon any of the sidewalks, streets, corner of streets, or public places of the City of Cloverport so as to obstruct the free passage thereof or so as to interfere with any business conducted within said city, and each and every person so offending shall, for each offense, be fined not less than one nor more than twenty-five dollars."

"If any able-bodied person be found begging, loitering or rambling about, not having the means to support himself by some visible property, or does not take himself to labor at some honest and lawful calling to obtain a livelihood, or who is idle or dissolute in habits, or is found loafing or idling about places of evil resort without visible means of support, shall be arrested and adjudged to be a vagrant and a nuisance, and upon conviction thereof, shall be fined by the police court in a sum not less than one dollar nor more than twenty-five dollars for each offense."

If every man on our Main street would make it his business to keep an eye on the "pot" maker, no "pots" would be made up. The fellows that make up the "pots" are generally cowards, and at one hard look in the eye they back down and dwindle up like a leaf in the parching sun. The recent publicity the News has given these fellows has stopped this unlawful sale of whisky to a large extent, but "pots" are still being made up on the sly and the people of Cloverport don't want this. If the law won't stop lawlessness, let public sentiment do it.

The Farm Journal has nearly three million readers each issue. It

is the best farm paper in America, and it pleases the women folks all to pieces. We have made a special arrangement by which by paying for the Breckenridge News one year in advance the subscription will include the Farm Journal for the balance of 1906, and all of 1907, 1908, 1909 and 1910, nearly five years, and at the price of our paper alone.

The local union of the A. S. of E., of McQuady, have said by resolution that they will not help a non-member in the matter of wheat threshing, log-rolling, corn-shredding or house or barn-raising. This is the first step of this kind that has been taken by the A. S. of E. in this section. Such resolutions, however, are in force in Tennessee, and even more radical methods than this have been adopted to wield the power of the American Society of Equity.

We wish every farmer in Breckenridge county could have been present at the State Institute held in Frankfort last week and heard Prof. Wing on the growing of Alfalfa. It was full of pathos and many practical ideas. The Institute was a grand success. Commissioner Vreeland deserves the thanks of every farmer in the State for his good work on behalf of agriculture in Kentucky. Dr. Foote will tell our readers all about it in our next issue.

FRED PIERCE is a chip off the old block. He's got the metal of his father in him. Fred reminds us of an instance in his father's life when he threw the first shovel of dirt on the Texas road. Fred is doing in New Mexico what his father did in this county years ago, putting his hands to the saw, as his father did to the shovel, helping to push and move things. We congratulate the young man.

SUMMER will soon be here. There are many beautiful sites in and around Cloverport, and the town should not be without a park. At little expense a lot could be converted into a park with seats, walkways, swings, a tennis court, etc. Many towns with Cloverport's population have parks and, when they are conducted properly, are a credit to the towns.

THE News' magazine section is full of good reading this week. "Rich Wedding Presents," "Homes for City Waifs" and "The Post or in Politics," are interesting stories found in this section.

A NEW YORK court has decided that in New York the husband is boss of the household. In Kentucky the women let the men think they are "it," but in reality the women are the bosses.

THE best thing you can do with that dollar in your pocket is to spend it for a year's subscription to the News and five year's subscription to the Farm Journal of Philadelphia.

WHAT are you doing or saying in behalf of that good roads convention? Get to work, get busy on the good roads question. Judge Moorman is a good roads man, and is in a position to help the work along if the people show any interest.

The foregoing citizens of Breckenridge county are hereby appointed Chairman and Secretary of their respective precincts, as shown on above list, for the purpose of conducting the precinct convention which will be held in each of the 21 precincts of the county—on Saturday, March 24, 1906, at the voting place of each precinct, at 2 o'clock, p. m. I have appointed 15 delegates to each precinct, and the Chairman and Secretary, work up the interest and make the precinct and county convention a success. The delegates will confer with the Chairman and all pull together. See that your Secretary records the sense of the precinct convention on each and every subject touched in the letter of appointment. Have it nicely written and systematically arranged for future reference. The Chairman, Secretary and delegates will then meet in Hardinsburg on Monday, March 26, at 9 o'clock sharp, bringing with them the written report of the precinct, and we will be entertained and instructed by some of the best of our men, and profit by each others' suggestions and criticisms. If there is any one of our officers who cannot serve or will not serve, it is your plain duty to inform me forthwith. If there is any informant that you desire, I will take pleasure in furnishing any that is at my command. If this were a funeral and you would drop everything to come. There is no man in the county so important to the county interest as this move, if successful. Let us take hold of this matter to succeed—and we will. I am, Very Truly,

# Proverbs

"When the butter won't come put a penny in the churn," is an old time dairy proverb. It often seems to work though no one has ever told why.

When mothers are worried because the children do not gain strength and flesh we say give them Scott's Emulsion.

It is like the penny in the milk because it works and because there is something astonishing about it.

Scott's Emulsion is simply a milk of pure cod liver oil with some hypophosphites especially prepared for delicate stomachs.

Children take it naturally because they like the taste and the remedy takes just as naturally to the children because it is so perfectly adapted to their wants.

For all weak and pale and thin children Scott's Emulsion is the most satisfactory treatment.

We will send you the penny, i. e., a sample free.

We assure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

## WON'T HELP NON-MEMBERS.

The local union of the A. S. of E. at Jolly Station was called to order by President G. S. Wilson, Saturday evening Feb. 24, 1906.

The roll-call by the Secretary showed a quorum present, and the lodge proceeded to business. The matter of annual dues having been disposed of the doors of the lodge were opened for the reception of new members whereupon Messrs. G. P. Ballard and Burne McGary presented themselves for membership and were received in to full connection. The following resolutions were unanimously adopted:

Resolved, that the members of this lodge positively refuse to assist in the matter of wheat-threshing, log-rolling, corn-shedding or house or barn raising, where the party having such work to perform, is a non-member, or who by practice acts in opposition to the plans and purposes of the Green River Dark Tobacco Growers Association.

## INTERESTING LETTER

FROM REV. H. HARRELL.

Chrisney, Ind., Mar. 2, 1906. Mr. J. D. Babbage, Cloverport, Ky. Dear friend and brother—Since the time of my visit to Cloverport last fall the Breckenridge News has been making regular and most welcome visits to my home. It is one of the cleanest, cheeriest, most progressive and best among more than the half dozen periodicals that come into my hands. I am so sorry that the poor old much abused County unit local option bill has again received a black eye. Yes; it is all right for the whiskey money. Jack Cism Co. It may be adopted as a rule without exception that what is right for the whiskey money is wrong for the temperance people.

I want to take off my hat to Judge Henry DeHaven Mooreman, and extend him my hand from across the Ohio in congratulation upon his bold, progressive and wise movement for good roads in old Breckenridge county. This plan in a wise one, and inasmuch as it appeals to, and includes the whole people of the county irrespective of their geographical position, or political creed, it cannot fail to be popular. If the people will honestly co-operate with their county judge in his determination to secure good roads through out the county, and make it easy for him to carry out the intention of the statutes upon the subject, it will be but a few years until Breckenridge county will, after things being equal, have as good roads as any county in the State. He can do, comparatively, nothing without their co-operation; with it, he will prove, at least upon the subject of good roads, a veritable "Daniel come to judgment."

If McQuady gets the Midwestern railroad, tell her to please extend it to Cloverport, and I will run around to Cannellton, Ind., and step over to see her some afternoon. This would give me an opportunity to shake hands

## SWEEET LION'S LIFE

Untold Suffering and Constant Misery—Awful Sight From that Dreadful Complaint, Infantile Eczema—Commenced at Top of his Head and Covered Entire Body.

## MOTHER PRAISES CUTICURA REMEDIES

"Our baby had that dreadful complaint, Infantile Eczema, which afflicted him for several months, commencing at the top of his head, and at last covering his whole body. His sufferings were untold and constant misery. In fact, there was nothing we would not have done to have given him relief. The family doctor seemed to be wholly incapable of coping with the case, and after various experiments of his, which resulted in no benefit to the child, we sent to Mason, Ill., to a druggist and got a full set of the Cuticura Remedies and applied as per directions, and he began to improve immediately, and in about three or four days began to show a brighter spirit and really laughed, for the first time in a year. In about ninety days he was fully recovered, with the exception of a rough skin, which is gradually disappearing and eventually will be replaced by a healthy one."

"Praise for the Cuticura Remedies has always been our greatest pleasure, and there is nothing too good that we could say in their favor, for they certainly saved our baby's life, for he was the most awful sight that I ever beheld, prior to the treatment of the Cuticura Remedies. Mrs. Mabelle Lyon, 1828 Appleton Ave., Parsons, Kan., July 18, 1905."

## COMPLETE TREATMENT \$1

Complete external and internal treatment for every humor, consisting of Cuticura Soap, Ointment, and Pills, may now be had for one dollar. A single set is often sufficient to cure most torturing, disfiguring, itching, burning, and scaly humors, eczema, rashes, and eruptions, from infancy to age, when all else fails.

Cuticura Soap, Ointment, and Pills are sold throughout the country by all druggists and dealers.

Send for "The Great Skin Book."

With a lot of old friends there and get home again before bedtime.

I sincerely hope and pray that your good city of Cloverport will be able to still hold the saloon crime at bay, and to severely rebuke the saloon apologists and supporters by a big majority vote in the coming local option election. O what a burlesque upon good government is this saloon upon our coasted civilization, that the peace and well-being of a town or community may be thus menaced by the saloon every two years. How long. O how long shall it be till the people will choose wise legislation who are free from saloon domination.

The good people of Indiana have been fighting the saloon under even greater disadvantages than exist in Kentucky, but since last May the statutes have provided us a system of remonstrance, which is about as good, and in some respects is perhaps a little better, than the Kentucky Local Option law. Some of us cleared our skirts of the saloon evil, for the time being, by doing what we could to prevent the further granting of saloon licenses at this place. Since that we have endeavored what we failed to cure, and while so doing the time, we have sought to educate the people for another effort, and are confidently expecting to strike some time, and that in the near future. Hammond township, which includes the town of Randolph and its vicinity, where I have been preaching once a month during the last year, has recently gone for saloon licenses, and including Rockport, lies a remonstrance which will close fourteen saloons there when present license expires; this will make a total of twenty saloons around the corner in Spencer Co., Ind. Jackson township, which includes the town of Grass, township, and it is said, also the remonstrance today. This will make dry territory on this side of Grass township, and it is said, also the township; on the remaining side can be easily made dry, and probably will be soon.

I enclose you a poster which will indicate what we are to undertake in Grass township which includes Chrisney, with its four saloons.

Yours for good government,  
W. V. Harrell.

## Common-Sense Facts.

"Stop pouring bad medicine down your throat, and get acquainted with your own body." is the message of the Biggle Health Book (see advertisement in another column). Of all the practical and sensible books that have been written by Jacob Biggle, the Health Book is certainly one of the very best, telling clearly and fully what to do to keep well and avoid the doctor's visit and how to assist him when attacked by the seven hundred different diseases every one is likely to get. No medicine in it, no worthless "treatments," no quackery; just the common-sense facts on health and hygiene, how to keep the whole family well without dosing? "A man, as he manages himself, may die old at thirty or young at eighty," says Judge Biggle. The Health Book is 50 cents, free by mail; address the publishers, Wilmer Atkinson Co., Philadelphia.

## SOUTH A WHITE MAN'S LAND.

The Southern Society celebrated Feb. 22 with a reunion at the Wadsworth. More than two hundred members attended. The feature was a lecture by James Arthur MacKnight of Alabama, who with the aid of stereoscopic views described the great development of the South in the last twenty years.

This growth had come about, Mr. MacKnight said, despite the immense damage which had been done to the interests of the South by the carping and nagging of certain elements in the Northern States.

"Much has been said in blame of the South," Mr. MacKnight said, "but little in its praise. The time has come to tell another story. One of the criticisms which has been generally circulated is that the Southern employer, having been at one time accustomed to slaves, treats his laborers as they were slaves. This is slander pure and simple; if there ever was slightest basis for it, it does not exist now."

"The nagging of the South on the negro question has gone on now steadily for forty years. It would seem about time to give the South a rest on this question and leave the solution of it to the people who are most affected by it. What the South has done in eliminating the ignorant negro vote, which is as corrupt as it is ignorant, would be done by any Northern community confronted with the same conditions. If there were a million negroes in New York city and only one hundred thousand white men the latter would rule the city, hold all the offices and keep entire control of public affairs; and they would not admit the negro to social equality."

"What the South has done to cut out the ignorant and corrupt negro vote has been sustained by the court of last resort, and the agitators in Congress, it is said, have been warned by President Roosevelt and Speaker Cannon that those high officials of the Government will give them no comfort in their efforts to cut down Southern representation. The South has no fear that this will ever be done; they regard the South as a white man's country and believe that it will always be so."

## A GUARANTEED CURE FOR PILES

Dr. J. P. Ziegler's Pile Ointment. It is a guaranteed cure for piles in 10 to 14 days. 50c.

## Fatally Burned.

Ruth Ramsey, the nine-year-old child daughter of Mr. and Mrs. John E. Ramsey, was fatally burned at the family home at Spottsville Thursday shortly before noon. The child was with her mother in the kitchen helping her to prepare dinner. Mrs. Ramsey stepped out in the yard for some purpose. While she was away the blind girl attempted to put coal in the stove and her dress ignited. The child was not aware of her danger until the flames had gained sufficient headway to burn through her clothes. The remains of the child were buried at Owenston.

Louisville, Ky., June 13, 1901.

Dr. E. W. Hall, St. Louis, Mo.—Dear Sir: I have suffered three years from kidney and bladder troubles, and one-half bottle of the Texas Wonder, Hall's Discovery has cured me, and I can cheerfully recommend it.

Yours very respectfully,

## A TEXAS WONDER

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of \$1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. E. W. Hall, Sole Manufacturer, P. O. Box 629 St. Louis, Mo. Send for testimonials. Sold by all druggists.

## Going West.

Mr. John W. Vest, of Kansas City, Mo., formerly of Cloverport, will leave shortly for the Western part of the State of Washington to look after some timber interests for a Kansas City syndicate. He will be in the neighborhood of Tacoma and Seattle and says he hopes to meet some of our Breckenridge county people who are living there.

Mr. Vest and his brother, Eugene, are real estate agents in Kansas City and have a large clientele. It is useless to say that our old boy, John, will get what he goes for even in far-off Washington.

The Ladies' Reading club met last week with Mrs. Chas. B. Skillman. Next Thursday the club meets with Mrs. J. L. Moorman. The book, "Conquering Dr. Lindy" is now being read by the club.

## HOW TWO BEAUTIFUL WOMEN ESCAPED PELVIC CATARRH BY AID OF PE-RU-NA.

Female Weakness Is Usually Pelvic Catarrh. Pe-ru-na Cures Catarrh Wherever Located.

Mrs. Mable Bradford, 13 Church street, Burlington, Vt., Secretary Whittier Oratorio Society, writes: "Pe-ru-na is certainly a wonderful medicine for the ills of women. I have heard it spoken of in the highest praise by many, and certainly my experience is well worthy of a good word."

"I began to have severe pains across my back about a year ago, brought on by a cold, and each subsequent month brought me pain and distress."

"Your remedy was prescribed, and the way it acted upon my system was almost too good to be true. I certainly have regained my health and strength, and I no longer suffer periodical pains and extreme lassitude."—Mable Bradford.

Thousands of Women Cured Every Year by Correspondence—This is What Dr. Hartman Proposes to Do For You Without Charge.

Women who suffer should read the evidence presented here. We have thousands of letters from grateful friends who tell the same story.

And the ills that are peculiarly women's own are of a catarrhal character. Female weakness was not understood for many years.

Dr. Hartman deserves the credit of having determined its real character. He has made catarrh and catarrhal diseases, including pelvic catarrh a life long study.

Pe-ru-na cures catarrh, whether of the pelvic organs or any other organ of the human body.

Pe-ru-na, a Natural Beautifier.

Pe-ru-na produces clean, mucous membranes, the basis for facial symmetry and a perfect complexion.

The women have not been slow to discover that a course of Pe-ru-na will do more toward restoring youthful beauty than all the devices known to science.

Many a girl has regained her faded beauty, many a matron has lengthened the days of her comely appearance by using Pe-ru-na.

In Pe-ru-na these women find a prompt and permanent cure.

Thousands of testimonials to this effect are received by Dr. Hartman every year. The good that Pe-ru-na has accomplished in this class of cases can scarcely be over-estimated.

If you do not derive prompt and satisfactory results from the use of Pe-ru-na, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio. All correspondence held strictly confidential.

## ST. LOUIS LIVE STOCK MARKET.

Reported by Evans-Snyder-Buel Co. Live Stock Commission Agent.

Special to the News.—National Stock Yards, Ill., Feb. 21, 06.

A good moderate run of cattle early this week met with a slightly lessened demand as compared with a week ago. Beef and butcher cattle are selling slow to a dime lower. Outside of one 6-cent bunch there has been nothing good in the beef steer line. We sold several bunches of 100-day fed Kansas steers weighing 1277 to 1303 at \$5.10 to \$5.45, also a good quality light weights and plain quality heavy weight natives at \$4.75 to \$5.00. Best heifers brought \$4.65, prices ranging down to \$3.00 to \$3.75 for commoner lot. Best cows \$4.50; bulls \$3.50 to \$4.00. Killers are strong competitors for all pretty good weight feeding steers that show any flesh. Not enough stockers and feeders coming to supply the demand.

Our bullish views on hogs are reflected in a 75 cent advance since Feb. 1st. The fancy price of \$6.30 was paid here Monday and Tuesday; \$6.25 sales being pretty plentiful and the bulk of the packing grades going at \$6.10 to \$6.20.

Sheep values practically unchanged; lambs a quarter lower. A fair grade of stockers selling \$4.00 to \$4.35 and western lambs around \$6.65. Very few native sheep coming.

## Pale, Thin, Nervous?

Then your blood must be in a very bad condition. You certainly know what to take, then take it—Ayer's Sarsaparilla. If you doubt, then consult your doctor. We know what he will say about this grand old family medicine.

This is the first question your doctor would ask. "Are your bowels regular?" He knows that daily action of the bowels is absolutely essential to recovery. Keep your liver active and your bowels regular by taking laxative doses of Ayer's Pills.

Made by J. C. Ayer Co., Lowell, Mass. Also manufactured by W. D. Hoag & Co., Lowell, Mass. Ayer's PILLS. CHERRY PECTORAL. We have no secret. We publish the formula of all our medicines.
